Betty Williams is a well known stock dog handler, breeder, trainer and clinician. She and her husband John operate a large cattle ranch near Lewistown, MT. Her stock dogs help them daily with ranch work from roundup and sorting to penning and loading for shipment. Betty has developed an efficient system for training stock dogs and handlers, which maximizes both the dog's working instincts and its responsiveness to the handler. She has found that her training methods work very well for all stock dog breeds. Her previous clinics have been well received by those who have attended them. Note: These clinics tend to fill early.
